Professional Summary

Skilled and results-driven Frontend Developer with hands-on experience in building modern, scalable web applications using React JS and Next JS. Proficient in responsive UI/UX design, state management, and integrating RESTful & GraphQL APIs. Proven ability to collaborate in agile teams and deliver optimized, high-performance solutions.

Professional Experience

Frontend Developer

Webskitters Technology Solutions Pvt. Ltd – West Bengal

 September 2024 – Present

- Developing scalable and responsive frontend interfaces using React JS, Next JS, and Tailwind CSS.
- Integrated REST and GraphQL APIs using TanStack Query for dynamic data rendering.
- Collaborated with backend and design teams to ensure seamless UI/UX delivery.
- Implemented performance enhancements including lazy loading, code splitting, and component memoization.

Frontend Developer

Underscore Technology – Kolkata, West Bengal

 November 2023 – September 2024

- Built and maintained robust admin panels and user interfaces with optimized components.
- Handled global state using Redux Toolkit and Zustand in medium to large-scale applications.
- Developed mobile-first designs and implemented responsive layouts across all viewports.

Education

Diploma in Electronics & Telecommunication Engineering

Ramakrishna Mission Shilpamandira, West Bengal

 November 2020 – July 2023

Technical Skills

- Languages & Core: HTML5, CSS3, JavaScript, TypeScript
- Frontend Libraries & Frameworks: React JS, Next JS
- UI/Styling: Tailwind CSS, Material UI, Shad CN, Bootstrap
- State Management: Redux Toolkit, Zustand
- API & Data Handling: REST API, GraphQL, TanStack Query
- Tools & Platforms: Git, GitHub, GitLab, Vite, VS Code
- Design & Prototyping: Figma, Responsive Design Principles
- Soft Skills: Problem-solving, Collaboration, Time Management

Project Highlights

- Stock Market & Crypto Scanner Platform

Built a responsive dashboard to track live stock and crypto data with filter and search functionalities.

- Online Teaching & Class Booking Platform

Developed booking flows and course interfaces with dynamic routing and real-time API integration.

- E-commerce Store with Admin Panel

Implemented complete product lifecycle management, cart systems, and order tracking dashboard.

- Restaurant & Event Management Platform

Built intuitive UI for staff roles, order tracking, menu edits, and analytics. Designed and developed event listing, user registration tracking, and status update systems.

- Event Management System with Storefront & Vendor-Customer Model

Created a full-featured event management platform with separate dashboards for vendors and customers. Customers can browse, book, and review events, while vendors manage listings, orders, and performance analytics.

- 18+ Role-Based Website with Customization & Chat

Developed a robust 18+ platform with multi-role architecture including models, users, and admins. Integrated real-time chat system, user subscriptions, and advanced profile customization for models. Implemented secure authentication and role-based routing for personalized access and privacy.

✓ Key Accomplishments

- Delivered high-performance UIs with optimized rendering and lazy loading techniques.
- Improved maintainability of projects through reusable, modular components.
- Streamlined team workflows using Git-based collaboration and proper code documentation.
- Successfully handled sensitive user data and privacy controls for role-specific platforms.

Why Choose Me

-  Deep technical expertise in modern frontend frameworks like React JS and Next JS.
-  Strong understanding of state management and API integrations ensuring dynamic, responsive UIs.
-  Proven ability to build mobile-first, performance-optimized web apps using Tailwind CSS and best practices.
-  Excellent collaboration and communication skills, with a track record of working efficiently in cross-functional teams.
-  Passion for continuous learning and improving both code quality and user experience.
-  Real-world experience delivering full-fledged applications across different domains including e-commerce, education, admin dashboards, and adult platforms with advanced features.
